ALL YOU

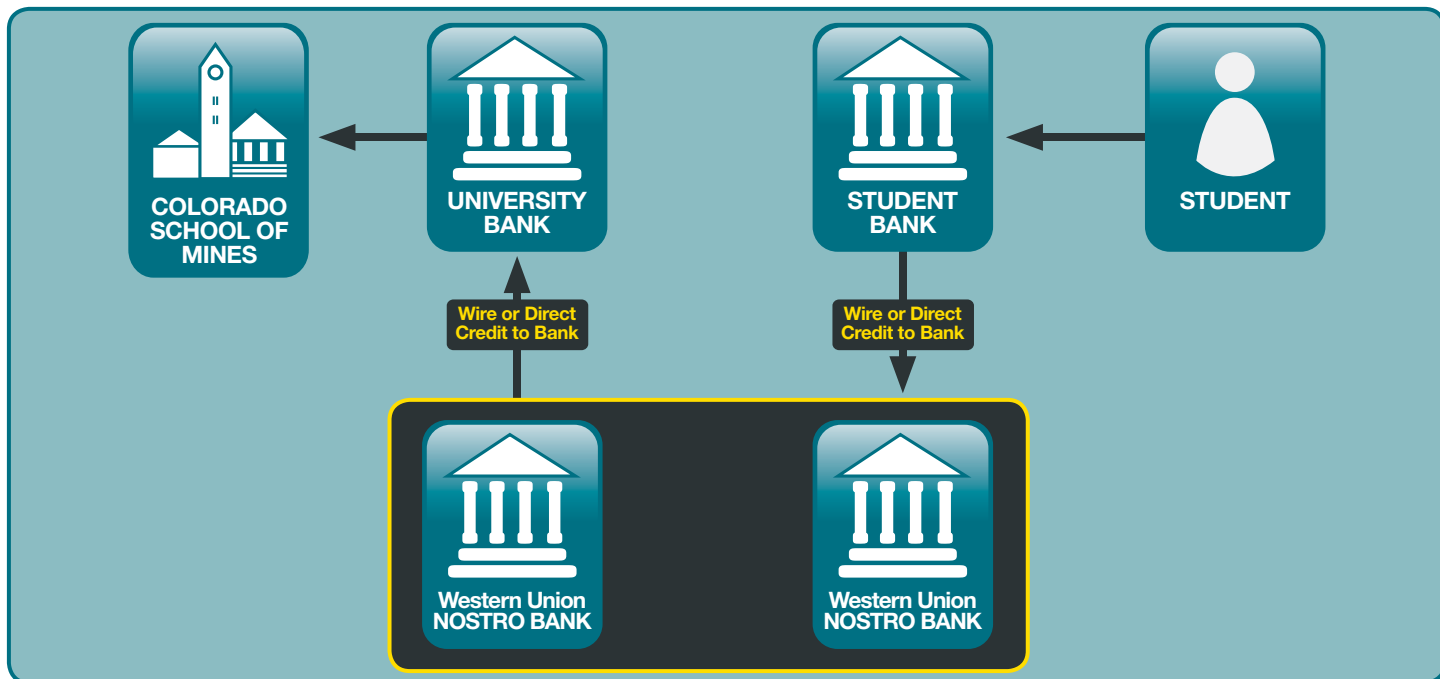

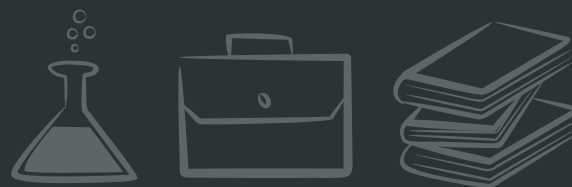

The most efficient means for an international student to pay their student account balance is through Western Union's bank-to-bank transfer. This option allows you to lock in an exchange rate quote in your currency of choice and provides a simple and secure way of initiating a payment electronically.

You have a lot to think about when applying to a university abroad, including using international markets to make payments to your student account. International wire transfers can be initiated online through **Trailhead** and here are some of the benefits to you:

- You can easily lock in an exchange rate quote by going online through **Trailhead** and selecting "International wire transfer" as your payment option
- The exchange rate is competitive when compared to your financial institution's retail rates and bank service fees may be reduced since the transaction is initiated as a local bank transfer
- There are NO transaction charges from Colorado School of Mines or Western Union, though you may be charged a transaction fee by your bank
- The exchange rate is valid for 72 hours (3 calendar days) after the transaction is initiated
- Payments include your reference information to ensure your payment reaches your student account quickly, typically 2-5 business days after you have made the payment at your bank
