7. From the Fund Summary page, clicking on an activity amount will drill down into detail for that account.
8. For all activity details for all accounts, click on ‘Detail’ at page top, from the Fund Activity page (or from the Fund Summary page). All transaction level detail for the life of the fund – whether inception-to-date, or all active Fiscal Years – will be displayed. This may take close to a minute to load, depending on the scale of the fund.
9. The All Detail screen allows the user to select activity timeframe and/or account to narrow the report results.

10. If no results are found, select a different account, select new dates, or reset the default dates.
11. Other report functionality:
   a. Export to PDF, Excel or CVS – clicking any of these options at top right of the report window will open up a new browser window and export the information to that format. [note: some browsers will require you to first disable Pop-Up blocking.]

   b. Multiple pages – if data exceeds the length of the page, Cognos Page Up and Page Down functionality will appear at bottom left of the report window. Use these functions to navigate between pages.
