Colorado School of Mines Department of Geophysics invites applications for a regular academic faculty position in Geophysics, which is anticipated to be filled at the rank of Associate or Full Professor. The Department is seeking an individual with a distinguished international reputation in seismic techniques applied to exploration for, and development of, natural resources. This opening arises from the impending retirement of Professor Tom Davis, who founded and has directed the highly successful Reservoir Characterization Project (RCP), which focuses on application of geophysical methods and integration of related multi-disciplinary data to reservoir characterization.

Mines is an EEO/AA employer and is committed to enhancing the diversity of its campus community. Women, minorities, veterans, and individuals with disabilities are encouraged to apply. Employment with Mines is contingent upon the satisfactory completion of a background investigation.
College of Earth Resource Sciences and Engineering (CERSE)  
Department of Geophysics  
Associate Professor or Professor of Geophysics — Reservoir Characterization

**Compensation:** Salary and benefits will be commensurate with qualifications and experience. Mines also provides an attractive benefits package including fully paid health insurance, dependent tuition benefits, parental leave policies and dependent care assistance through a flexible spending plan.

**How to Apply:** Applicants must send a letter of interest addressing each of the qualifications, a resume, a list of publications, a record of research funding, and the names and contact information for three references from whom letters may be subsequently requested to: Colorado School of Mines, Human Resources Office, Search#: **14-061020**, 1500 Illinois Street, Golden, CO 80401, Fax: (303) 384-2025.

Electronic applications are encouraged and will be accepted at fsearch@mines.edu. If using this method of application, please put the search number as indicated above (in bold) in the subject line to ensure that your materials are properly forwarded to the search committee.

Review of applications is ongoing. Questions about this position may be addressed to Dr. Roel Snieder rsnieder@mines.edu, Head, Department of Geophysics [http://geophysics.mines.edu](http://geophysics.mines.edu).
