Mines partnered with Newmont for Innovation Workshop, Jan. 23

Mines to study geothermal energy possibilities for southwestern CO town

In the media: The Denver Post covers the M's new, brighter bulbs

ANNOUNCEMENTS

The U.S. Geological Survey National Geospatial Program awarded $750,000 to the Colorado Geological Survey for lidar acquisition in Central and Western Colorado. CGS will use the accurate 3D elevation data to help local communities plan for natural hazards and respond to disasters such as floods and landslides, support infrastructure, and strengthen environmental decision-making.

The Mines chapter of the Blue Key Honor Society recently received the Blue Key Director’s Choice Award at the Society’s National Conference held at Kansas State University. The Director’s Choice Award is one of the highest honors and recognizes chapter contributions, achievements, participation at the national level, and the personal character of its members. The students and advisors who attended the conference included Peter Consalvi, Brittany Marshall and Chase Li. Chapter advisors in attendance were Michelle Kozel (National Blue Key Board Member), and Bruce Yoshioka.

EVENTS

JAN 26: Physics colloquium: George DeMartino, DU, 4 p.m., CTLM 102

JAN 26: EB: Engineering Technology Management Informational Session, 6 p.m., Ballroom C
JAN 27: PE Distinguished Seminar: “Advanced Trajectory Computational Model Improves Calculated Borehole Positioning, Tortuosity and Rugosity,” by Mahmoud Abughaban, 4 p.m., Marquez 226

JAN 28: CBE Seminar: “Computationally Assisted Discovery of Metal-Organic Frameworks for Storage, Separations and Catalysis,” by Diego Gomez-Gualdron, Northwestern University, 8:30 a.m., Hill 202

JAN 28: Van Tyul Lecture: “Policy Approaches to Achieving the Social License to Operate: Comparing Mining and Unconventional Energy Community Conflicts in the American West,” by Jessica Smith, 4 p.m., Berthoud 241

JAN 29: Concert in the Library: Scott Kumjian playing folk-country-rock, 12 p.m., Arthur Lakes Library, Boettcher Room

JAN 29: EB: Engineering Technology Management Informational Session, 12 p.m., Marquez 222

JAN 29: AMS Colloquium: “Nonlocal Models and Peridynamics,” by Michael Parks, Sandia National Laboratories, 3 p.m., Chauvenet 143
