

## **EGGN 499, INDEPENDENT STUDY (CIVIL)**

Projects are available to individual students interested in more research-oriented component to their undergraduate curriculum. Independent Study can often be used as a **Civil Elective** or a **Free Elective** and is worth up to 3 hours of credit in either of the Fall, Spring or Summer subject to availability of projects and faculty supervision.

Students interested in Independent Study are encouraged to approach faculty to ask if they would be willing to offer a module on a mutually agreeable topic.

The “deliverables” of an Independent Study module would usually involve a written report covering the activities of the semester.
