Ice-related Slip & Fall Injuries
Sydney Richardson

Importance

• Earliest Date of First Snow: September 3, 1961
• September 17th: Snow in Rocky Mountain National Park

Slip and Fall Statistics: (The Centers for Disease Control and Prevention)
• 1 million Americans injured as a result of slip and fall injuries every year
• 17,000 people die every year
• About half of the people injured are walking on level ground
To avoid slipping....

• Wear proper footwear
• Pay attention
• Keep your hands out of your pockets
• Take small steps and walk slowly
• Enter buildings carefully
• Avoid taking shortcuts
