Student rewritten problem

- Students were asked to take any problem assigned so far this semester and re-write it to illuminate one of the six SJ criteria.

- Rewrite any problem statement used so far this semester to provide a social justice element in the problem definition. You may wish to refer to the semester project and HW8 (Section C) Problem 1 as models. Your submission should include the following three items:
  - (a) one of the following statements:
    - YES Yes, I consent to the use of this assignment in research. I understand that research analysis will not begin until after the conclusion of the semester and submission of final grades, and that my consent will not impact my grade in any way. I also understand that my name will be removed prior to analysis to protect my identity.
    - NO No, I do not consent to the use of this assignment in research. I understand that declining consent will not impact my grade in any way.
  - (b) the source of the original problem (e.g., homework assignment and problem number or lecture article example and page), and
  - (c) your revision and its motivation, explicitly citing at least one of the social justice criteria discussed in class.
