

CURRICULUM VITAE

Roelof K. Snieder

W.M. Keck Distinguished Professor of Professional Development Education
Center for Wave Phenomena and Office of Academic Affairs
Colorado School of Mines

Telephone: +1.303.273.3456
Email: rsnieder@mines.edu
<http://www.mines.edu/~rsnieder>

Education:

- Ph.D. (cum laude), Geophysics, Utrecht University, Netherlands, 1987. Thesis title: Surface wave scattering theory, with applications to forward and inverse problems in seismology.
- M.A., Geophysical Fluid Dynamics, Princeton University, Princeton, USA, 1984.
- Drs. degree, Theoretical Physics, Utrecht University, Netherlands, 1982. Thesis title: Inverse scattering in three dimensions.

Positions held:

- W.M. Keck Distinguished Professor of Professional Development Education, Colorado School of Mines, USA (2017-present)
- Interim Department Head of Geophysics, Colorado School of Mines, USA (2016-2017)
- W.M. Keck Distinguished Professor of Basic Exploration Science, Colorado School of Mines, USA (2000-2017)
- Visiting professor at the GFZ German Research Centre for Geosciences and the German Federal Institute for Materials Research and Testing (July-December 2014)
- Director of the Center for Wave Phenomena at the Colorado School of Mines (2008-2011)
- Visiting professor at the Global Climate and Energy Project, Stanford University (January-June 2008)
- Dean of the Faculty of Earth Sciences, Utrecht University, Netherlands (1997-2000)
- Full professor in seismology at the Department of Geophysics of Utrecht University, Netherlands (1993-2000)
- Visiting professor at the Center for Wave Phenomena, Colorado School of Mines (1997)
- Associate professor in seismology at the Department of Geophysics of Utrecht University, Netherlands (1988-1993)
- Postdoctoral fellow in the "Equipe de Tomographie Géophysique" of the Institut de Physique du Globe in Paris, France (1988)

Professional honors:

- Vening-Meinesz award (1989), issued by the Netherlands Organization for Scientific Research (NWO)
- Recipient of a PIONIER grant from the Netherlands Organization for Scientific Research (NWO, 1991-1996)
- Award (1992), issued by the Fund for Science, Technology and Research (Schlumberger)
- Fellow of the American Geophysical Union (2000) for important contributions to geophysical inverse theory, seismic tomography, and the theory of surface waves.
- Faculty Teaching Award, Colorado School of Mines (2007)
- Nominated as “7Hero of the day” by 7News in Denver for work on energy education (2008).
- Corresponding member of the Royal Netherlands Academy of Arts and Sciences (2010-present)
- Excellence in Research Award, Colorado School of Mines, (2011)
- Honorary Member of the Society of Exploration Geophysicist (2011)
- Outstanding Faculty Member of the Order of Omega, Colorado School of Mines (2013)
- Outstanding Faculty Member Award of the Colorado School of Mines (2013)
- Among best 30 papers at the annual meeting of the Society of Exploration Geophysicists (F. Bazargani and R. Snieder, Optimal wave focusing for imaging and microseismic event location, 2013)
- Research Award from the Alexander von Humboldt Foundation (2014)
- Beno Gutenberg medal from the European Geophysical Union (2016)
- Outstanding Educator Award from the Society of Exploration Geophysicists (2016)

Editorships:

- Associate editor of Geophysical Journal International (1990-1994)
- Guest editor of Physics of Earth and Planetary Interiors for the special issue on 'Structure and evolution of the European lithosphere and upper mantle' (1993)
- Associate Editor of Inverse Problems (1994-1997)
- Editor of Reviews of Geophysics (1997-2001)
- Guest editor of Inverse Problems for the special issue on “Inverse Problems in Geophysics” (1998)
- Associate editor of the book “Scattering and inverse scattering in pure and applied science”, published by Academic Press (2002)
- Associate editor of the Journal of Acoustical Society of America (2009-present)
- Associate editor of the European Journal of Physics (2011-present)

Other professional activities:

- Invited lecturer at the Summer School on Studies of Earthquake Sources and Regional Lithospheric Structure based on Seismic Wave Data, Trieste, Italy (1990)
- Member of the Commission on Wave Propagation of the International Association of Seismology and Physics of the Earth's Interior (1992-1995)
- Member of the scientific organizing committee for the 7th conference of the European Union of Geosciences (1992-1993)
- Member of the sectorcommittee 'Endogene Processen' of AWON, the Earth Science branche of NWO (1992-1993)
- Vice-chairman of the Committee for Mathematical Geophysics (1997-1999)
- General convener of the seismology sector of the XIX-th conference of the European Geophysical Society (1994)
- Chairman of the selection committee of The Netherlands Geoscience Foundation (GOA) (1994-1996)
- Member of the scientific advisory committee for ORFEUS-EMSC (1994-1998)
- Invited lecturer at the Summer School on Three-dimensional modeling of seismic waves, Trieste, Italy (1996)
- Member of the scientific advisory committee the XX-th conference of the European Geophysical Society (1996)
- Invited lecturer at the Summer School on Wave Propagation in Complex Media, Les Houches, France (1998)
- Invited lecturer at the Summer School on Geomatics and Inverse Problems in Geodesy, Chania, Greece (1998)
- Invited lecturer at the Summer School on the Identification of Media and Structures by Inversion of Mechanical Wave Propagation, Udine, Italy, (1998)
- Invited lecturer at the Summer School on Imaging in complex media, Cargese, France (1999)
- Invited lecturer at the Mathematical Geophysics Summer School, Stanford University, USA (1999)
- Invited lecturer at the internal symposium of Schlumberger Research on "Inversion, Optimization and Uncertainty Analysis", Cambridge UK (2000)
- Member of NSF-panel (2001)
- Invited speaker at the Optical Society of America Topical Meeting on "Signal Recovery and Synthesis" (2001)
- Organizer of the session "Mathematical Seismology: Summer School and Research Opportunities" at the annual IRIS meeting (2001)

- Chairman of the selection panel of the program "Waves in Complex Media" of FOM (the Physics branch of the Science Foundation of the Netherlands).
- Member of NSF-panel (2002)
- Invited speaker at the GilbertFest (2002)
- Member of the Lehmann Medal Committee of the American Geophysical Union (2002-2004)
- Member of the advisory board of the research Group IMCODE (Imagerie, Communication et Desordre) (2003-2007)
- Member of the Earth Science Council of the Department of Energy (2003-2011)
- Convener of the session "Novel ways for analyzing the seismic coda" at the Fall AGU meeting (2003)
- Director of the NSF-sponsored Summer School on Mathematical Geophysics and Uncertainty in Earth Models (2004)
- Convener of the session "Oil at the core-mantle boundary?: bridging the gap between exploration and global seismology" at the Fall AGU meeting (2004)
- Organizer of the DOE workshop "Advanced noninvasive monitoring techniques" (2005)
- Visiting Fellow at the Research School of Earth Sciences at Australian National University, Canberra, Australia (2006)
- Member of organizing committee and panel leader for the DOE workshop and report "Basic Research Needs in the Geosciences: Facilitating 21st Century Energy Systems" (2007)
- Member of the selection committee for the "Spinoza prize" of the Netherlands Organisation for Scientific Research (2007-2010)
- Founding member and Chair of the committee Geoscientists Without Borders of the Society of Exploration Geophysicists (2008-2013)
- Convener of the session "Innovations in geophysics: a tribute to Rodney Calvert" at the 2008 Annual Meeting of the Society of Exploration Geophysicists.
- Convener of the Public Affairs session "Increasing the societal impact of geophysics" at the 2008 Fall Meeting of the American Geophysical Union.
- Invited speaker at the NATO advanced research workshop on coupled site and soil-structure interaction, Borovets, Bulgaria, 2008
- Director of the Center for Wave Phenomena (2008-2011).
- Visiting professor of the Center of Excellence Program of Tohoku University, Sendai, Japan (2009).
- Member of the Diversity Committee of the Colorado School of Mines (2009-present).
- Visiting Fellow at the Australian National University, Canberra, Australia (2009).

- Member of the steering committee of the Red Rocks Community College Institute for Sustainability Education (RISE) (2010-present).
- Convener at the 2010 annual meeting of the American Geophysical Union.
- Chair of the Committee for Ethics Across the Curriculum of the Colorado School of Mines (2011-present).
- Invited lecturer in the Winter Enrichment Program at King Abdullah University of Science and Technology (KAUST) in Jeddah, Saudi Arabia (2011).
- Keynote speaker in the session “Enhancing graduate education in physics: focus on skills” at the Annual meeting of the American Physical Society in Dallas (2011).
- Invited lecturer for a faculty workshop “Career Development of Academic Faculty” at King Abdullah University of Science and Technology (KAUST) in Jeddah, Saudi Arabia (2012).
- Convener of the session “Solving Geophysical Problems” at the Conference for Mathematical Geophysics in Edinburgh (2012).
- SES Distinguished Speaker at Stanford University (2012).
- Member and of the selection committee for the “Gravitation Program” of the Netherlands Organisation for Scientific Research (2012 and 2013).
- Keynote speaker at the 39th Annual Review of Progress in Quantitative Nondestructive Evaluation (Denver, 2012).
- Invited speaker for four workshops on professional development for the Geo.X lecture series (Berlin, 2014).
- Member of the international advisory committee for the EC training network “Waves and Wave-Based Imaging in Virtual and Experimental Environments” (2015-2018).
- Member of the selection committee of the Beno Gutenberg Medal from the European Geophysical Union (2016-present).
- Convener at the 31st IUGG Conference on Mathematical Geophysics (Paris, 2016)
- Invited lecturer at the Advanced Training School on Time-Dependent Seismology (Sesimbra, Portugal 2016).
- Invited lecturer at the Summer School Passive Imaging and Monitoring in wave Physics: from seismology to ultrasound, Cargese, France (2017).
- Member of the CSM Presidents Council on Diversity, Inclusion and Access (2018).
- Astor Visiting Lecturer at Oxford University (2018).
- Recipient of the Distinguished Visitor Award from The University of Auckland Foundation (2018).
- Member of the visiting committee for the Earth Sciences at the Swiss Federal Institute of Technology (ETH, Zürich) (2018).

Publications: see attached lists with 271 internationally refereed publications, 3 textbooks [222, 237, 252], and 19 other publications.

Patent: Snieder, R., System for and method of monitoring properties of a fluid flowing through a pipe, US Patent 8,020,428 (2011)

Grants: see attached

Memberships:

- Royal Astronomical Society
- Society of Exploration Geophysicists
- American Geophysical Union
- Acoustical Society of America

Volunteer work:

- Fire-fighter with Genesee Fire Rescue (2000-2014), officer since 2003, and Fire Chief (2012-2014).
