The Division of Liberal Arts and International Studies (LAIS) at Colorado School of Mines (Mines) invites applications for a tenure-line Assistant or Associate Professor in Energy, Environment and Society. Desirable candidates are those who are excited to share in our mission to address the challenges of creating a sustainable global society through educating the next generation of leading scientists and engineers and expanding the frontiers of knowledge through research.

Mines is an applied science and technology university with education and research programs in engineering and science. Home of the arts, humanities, and most of the social sciences, LAIS is the academic unit responsible for providing the teaching and research that explore the interrelations among society and Mines unique mission in addressing the global challenges related to the earth, energy and the environment. For more information, please visit http://lais.mines.edu

Responsibilities: The successful candidate will have social science expertise on issues related to the energy and the environment with a particular focus on the environmental dimensions of corporate practices, community development, and community wellbeing. An emphasis on extractive industries is welcomed. The candidate will contribute to efforts in Humanitarian Engineering (HE), one of Mines most popular minors and areas of interdisciplinary collaboration, by developing new domains of research, outreach, and teaching in corporate social responsibility and sustainable community development. Furthermore, the candidate will be expected to work collaboratively with engineers, scientists, and other social scientists who are part of the HE program.

Qualifications: The disciplinary field is open, with a preference for Science and Technology Studies, and could include Anthropology, Sociology and closely related fields. Applicants must have 1) a Ph.D. awarded no later than June 2016; 2) an active research agenda and teaching experience in issues related to the environment, energy, and extractive industries; 3) a strong commitment to active learning and student-centered teaching with undergraduate science and engineering majors; and 4) a disposition to collaborative team work with scientists and engineers. The minimum qualifications to be considered at the Assistant and Associate Professor ranks are as follows:

- **Assistant Professor:** An earned PhD degree at the time of employment and demonstrated potential for success in teaching, scholarship, and service.

- **Associate Professor:** A PhD degree and documented success in teaching, scholarship, and service, and demonstrated potential for national and international professional recognition.

  **Applicants must specify in the application package to which rank they are applying.**

Mines is an Equal Opportunity/Affirmative Action employer and educator that recognizes that diversity is crucial to its pursuit of excellence in learning and research. Mines is committed to developing student, faculty, and staff populations with differing perspectives, backgrounds, talents, and needs and to creating a richer mix of ideas, energizing and enlightening debates, deeper commitments, and a host of educational, research, and service outcomes. As such, Mines values candidates who have experience working in settings with individuals from diverse backgrounds. Minorities, women, veterans, and persons with disabilities are strongly encouraged to apply.

**Compensation:** Salary and benefits will be commensurate with qualifications and experience. Mines also provides an attractive benefits package including fully paid health insurance, dependent tuition benefits, parental leave policies and dependent care assistance through a flexible spending plan.

**How to Apply:** Applicants must submit a cover letter, a curriculum vitae, statements of research and teaching interest, and a list of names and contact information for three references to: Colorado School of Mines, Human Resources Office, Search#: 16-021010, 1500 Illinois Street, Golden, CO 80401, Fax: (303) 384-2025.
Electronic applications are encouraged and will be accepted at: fsesearch@mines.edu. If using this method of application, please put the search number as indicated above (in bold) in the subject line to ensure that your materials are properly forwarded to the search committee.

Review of applications will begin by November 30, 2015.

Mines will have faculty in attendance at the Society for Social Studies of Science and the American Anthropological Association annual meetings in Denver.
