The Department of Electrical Engineering and Computer Science is hosting four special events for FEMALE 5th and 6th grade students

SCIENCE – TECHNOLOGY - ENGINEERING

GOOD NEWS: Studies of informal learning environments suggest that structured, non-school science programs can increase children's interest in science and ultimately impact the choices these children make in continuing their STEM (Science, Technology, Engineering, and Mathematics) education and career choice. BAD NEWS: Data shows females have less of an interest in most STEM fields than their male peers. PLAN: EECS at CSM is offering four sessions at CSM for girls in 5th and 6th grade with a goal to increase their interest in STEM fields.

TIME: 4:30pm - 5:45pm

Monday Session
September 15th, 2014
September 29th, 2014
November 3rd, 2014
November 17th, 2014

Tuesday Session
September 16th, 2014
September 30th, 2014
November 4th, 2014
November 18th, 2014

Wednesday Session
September 17th, 2014
October 1st, 2014
November 5th, 2014
November 19th, 2014

Thursday Session
September 18th, 2014
October 2nd, 2014
November 6th, 2014
November 20th, 2014

Cost: $50*

*Need-based scholarships available.

Each week will have a different sci/tech/eng focus and will include hands-on activities.

Please make check payable to Colorado School of Mines and bring 1st day.
Note: At least eight students must enroll for a session to occur.
Register early, as each session will have a maximum of 20 students (2 teachers).

For additional information, contact Tracy Camp at tcamp@mines.edu.

To start registration process, complete the form linked at:
http://goo.gl/P3cEiJ

Please register by September 3rd. We will contact you by September 8th with the session you are enrolled.
