

# GÉOTECHNIQUE

October 2015 VOLUME LXV NUMBER 10

## Editorial Advisory Panel

### Chairman and Honorary Editor

Professor E. Alonso  
Universitat Politècnica de Catalunya, Barcelona,  
Spain

### Members

Professor I. Anastasopoulos  
University of Dundee

Associate Professor B. Bienen  
University of Western Australia, Crawley,  
Australia

Dr J. Black  
University of Sheffield

Professor C. di Prisco  
Politecnico di Milano, Italy

Professor I. Einav  
University of Sydney, Australia

Professor D. V. Griffiths  
Colorado School of Mines, Golden, CO, USA

Dr M. J. Harbottle  
Cardiff University

Dr U. Klotz  
TÜV SÜD Industrie Service GmbH, München,  
Germany

Dr S. Kontoe  
Imperial College, London

Professor R. Lagioia  
University of Brescia, Italy

Dr F. Loveridge  
University of Southampton

Dr V. Magnanimo  
Universiteit Twente, Enschede, the Netherlands

Dr C. M. Martin  
University of Oxford

Dr A. S. Merritt  
Pellis Sullivan Meynink, Sydney, Australia

Dr W. Murphy  
University of Leeds

Dr G. Musso  
Politecnico di Torino, Italy

Professor M. Pastor  
Universidad Politécnica de Madrid, Spain

Professor J. Sulém  
Ecole des Ponts Paris Tech, Champs-sur-Marne,  
France

Professor D. G. Toll  
Durham University

Dr P. Vardanega  
University of Bristol

Professor L. Zdravkovic  
Imperial College, London

**General Manager, ICE Publishing** Mr M. Cookson

**Editorial** Mr C. Schaper & Ms J. Francis

**Production** Mr P. Allanson

ISSN 0016-8505 (Print)

ISSN 1751-7656 (Online)

© The authors and Institution of Civil Engineers 2015

Indexed by SCI, Current Contents, Compendex,  
Geo Abstracts, Elsevier Science Direct, Citeseer  
and others

## Contents

- 793 A bounding surface hysteretic water retention model for deformable soils  
**D. Gallipoli, A. W. Bruno, F. D'Onza and C. Mancuso**
- 805 Static and cyclic undrained response of square embedded foundations  
**N. Ntritsos, I. Anastasopoulos and G. Gazetas**
- 824 Another look at the stability of slopes with linearly increasing undrained strength  
**D. V. Griffiths and X. Yu**
- 831 Interpretation of piezoball dissipation testing in clay  
**H. Mahmoodzadeh, D. Wang and M. F. Randolph**
- 843 Stresses in soil–bentonite slurry trench cut-off walls  
**Y.-C. Li, P. J. Cleall, Y.-D. Wen, Y.-M. Chen and Q. Pan**
- 851 Effect of spatial variation of strength and modulus on the lateral compression response of cement-admixed clay slab  
**Y. Liu, F.-H. Lee, S.-T. Quek, E. J. Chen and J.-T. Yi**

## Discussion

- 866 Mohr–Coulomb failure envelopes of lime-treated soils  
**N. C. Consoli, L. Da Silva Lopes Jr, B. S. Consoli, L. Festugato, M. Di Sante, E. Fratolocchi and F. Mazzieri**
