In late March and early April, 370 first-year students responded to a survey about their experiences at Mines. Note that female students are over-represented in the sample of students who responded to the survey.

The purpose of the survey is to identify potential opportunities for improvement and to confirm positive aspects of students’ experiences. Thanks to Dr. Tom Boyd for financial support of this project and to Professor Renee Falconer and Nicole Vilegi-Sandage for their participation in the survey development process.

Part one of the report of results was included in the April newsletter; additional results are below.

1. **To What extent do you agree or disagree with the following statements?**

<table>
<thead>
<tr>
<th></th>
<th>I have made several friends since coming to Mines</th>
