

DEPARTMENT OF CIVIL & ENVIRONMENTAL ENGINEERING

Vision Statement

Empower the next generation to solve societal challenges relating to the natural and built environment.

Mission Statement

Prepare Civil and Environmental Engineering students to address current and future challenges in Earth, energy and the environment by delivering high quality research and educational programs in engineering and science.

To accomplish its mission, the department will

- Integrate more research into the educational experience.
- Promote cross-disciplinary scholarship and teaching within and beyond CSM.
- Provide an education that also encourages life-long learning.
- Pursue a collegial and diverse faculty, staff and student body.
- Increase the national and international stature of our graduate and undergraduate programs.
- Increase the placement of graduates in prominent professional and academic institutions.
- Conduct impactful research, design and service that shape the future of our profession and society.

Department of Civil and Environmental Engineering Vision Committee:

Vaughan Griffiths (Chair), Chris Higgins, Terri Hogue, Ling Pei, Josh Sharp, Timm Strathmann, Alexandra Wayllace
